Request for Council Action

DATE: 10/17/2023

SUBJECT: United Parcel Service (UPS) – Conditional Use Permit Request

RECOMMENDATION: It is respectfully requested that the Council consider the following Planning Commission recommendation:

MOTION TO: Approve a Conditional Use Permit for United Parcel Service to construct a 6-feet high sight obscuring fence as a buffer on their property greater than 35 feet from the south property line.

BACKGROUND: UPS has operated a commercial terminal for several years at 1324 Third Street West. They have recently completed an addition and are required to provide a buffer along their south property line. The original site plan had the fence through a wetland. The Minnesota Board of water and Soil has approved a fence through the wetland as long as the bottom of the fence is 6-inches above the ground. UPS is requesting the fence be allowed further than 35 feet from their property line adjacent to their parking lot.

KEY ISSUES: The city recently added buffer strips as a conditional use to allow a performance-based approach. A conditional use permit is required on all buffers.

FINANCIAL CONSIDERATIONS: Costs associated with the Conditional Use Permit are paid by the applicant.

LEGAL CONSIDERATION: A Public Hearing was held by the Planning Commission to review this request.

In granting a request for a rezoning, the City Council shall consider the effect of the proposed zoning amendment upon the health, safety, morals, and general welfare of occupants of surrounding lands. Among other things, the City Council shall make the following findings where applicable:

2. That the rezoning will not impede the normal and orderly development and improvement of surrounding property for uses predominant in the area.

3. That the rezoning will not adversely affect property values of adjacent landowners.

4. That the rezoning will not impose other undue hardship on adjacent landowners such as noise, electrical display signs, odors, or other nuisances.

5. That necessary utilities be available to serve the use intended.

6. That additional public services needed by the rezoning be considered.

7. That alternate areas previously zoned for the intended use be considered.

8. That there is a public need for the proposed land use.

2 Scope of Engagement

2.1 Description

Customer has increased their daily processed reads from 324,000 to 684,000 in their Compass production system. The hosting fee will be increased by $3,328 annually to accommodate that increase. Since the increase occurred in July 2023, the increase will be for 13 months in order to align with the next annual hosting invoice scheduled for August 2024:

2.2 Assumptions and Constraints

1. Customer will provide the appropriate remote access to its network, facilities, and systems as may be required to perform activities from one of Consultant's locations. Consultant shall abide by all rules and directions of Customer when accessing Customer's network, facilities or systems. A Change Order may be created if appropriate remote access to its network is not available, resulting in project delays.
2. Customer agrees to facilitate any required Customer-side logistics for the fulfillment of this agreement.
3. This Quote is based on a standard 8-hour work day. If there are any changes to the hours required, scope or our understanding of the scope, the price is subject to change.
4. Any discovered issues requiring investigation or configuration will be logged for analysis via SmartWorks Customer Hub ticket.

5. If any additional configuration work is identified to be performed by Consultant, a separate Consulting Services Schedule will be required and additional fees will apply.
6. Any items not explicitly identified within this document are considered out of scope. Any changes to those responsibilities and/or deliverables will be considered a change in scope for the engagement. Any proposed change to the engagement scope must be put into written format and be submitted to Consultant during this engagement for review and consideration.
7. Customer will assign a lead to act as an internal resource and guide throughout this engagement.
8. Customer will secure the appropriate staff in a timely fashion according to the agreed schedule. Consultant accepts that there can be challenges in coordinating meetings with multiple resources. Customer accepts that limitations in access to the optimum personnel may result in compromising the content of the deliverables.

3 Delivery Approach

1. Customer will submit all requests and/or issues within the SmartWorks Customer Hub ticketing system.
2. Work will be scheduled to commence approximately 90 days from receipt of approval.
3. Customer will be contacted to inform them of the scheduled date of their work and the estimated timeframe for when they will be required for testing.
4. Approximately 1 week prior to beginning the work, Customer will be contacted by Consultant to confirm that they will be beginning work.

Upon acceptance of the Statement of Work, an estimated completion date will be provided. Work will commence approximately 90 days from approval of this quote. Should additional time be required to complete this project at any time, you will be notified and asked for your approval in advance of Harris Utilities SmartWorks completing the incremental work.

Upon completion of the tasks detailed in the Statement of Work, Customer will be contacted by the SmartWorks Consultant assigned to this quote to walk through the steps required for testing.
